## Curriculum Vitae

I am responsible and committed to work both individually and in a team. I am a determined person eager to acquire new knowledge in programming languages. I would describe myself by creativity, talent, persistence and perseverance.

## Diplomas

2020–2022 Master Studies, Academy of Business and Art Vocational Studies, Department of Art and Design, majoring in Audiovisual Composition. Belgrade, Serbia. Titled Master professional fine artist.

2018-2021 Undergraduate studies, Faculty of Economics, majoring in foreign trade and customs operations. Kraljevo, Serbia. Titled Economist, manager with higher education in customs business.

2017-2018 INALCO-International Institute for Oriental Languages and Civilizations, Sorbonne University. Paris, France. Studied and attended classes for one semester, after I was prevented to continue due to diplomatic visa.

2013–2016 College of Fine and Applied Arts, Department of Media and Pictures, Belgrade, Serbia. Titled Professional visual artist.

2012-2013 Academy of Fine Arts, Major Painting. Belgrade, Serbia. Studied and completed one year.

## Technical skills

Programming languages: HTML, CSS, JavaScript

Tools: Visual Studio Code, Git, Wordpress

Programs: Office, Photoshop, Illustrator, Aftereffects, Maya

## Work experiance in IT

During my studies, I gained experience in basic frontend development. Afterwards, I worked on frontend technologies, including HTML and CSS, as well as WordPress, for PASSION COMPANY DOO, a business owned by my cousin. Throughout this role, I contributed to various creative design projects with diverse interfaces, which significantly enhanced my skills. I also completed several freelance projects, primarily aimed at showcasing my own artwork, including paintings and drawings.

In JavaScript, I developed small projects such as a rock-paper-scissors game, a reminder list, shopping pages, and a product cart feature. In 2025, I launched my personal website, [www.lazarartist.com](http://www.lazarartist.com), where I plan to showcase my CV, designs, pages, and other exercises. This platform serves as an opportunity to demonstrate my development skills using HTML, CSS, and JavaScript to potential employers. You can access it by scanning the QR code below:
